

Why Shanghai Optics

Shanghai Optics provides full-service optical design, engineering, manufacturing, assembly and testing to a variety of clients worldwide for over 57 years. Our core expert engineering team consists of 6 top research designers and 12 optical, mechanical, and electrical engineers.

We provide optical system solutions to support our customers in all different application fields.

	Industries we serve:
6 Top Research Designers	<ul style="list-style-type: none">• Industrial Application• Military• Defense & Security• Consumer Products• Commercial/ Manufacturing• Entertainment• Medical• Life Science Research• Inspection & Metrology• Aerospace and Scientific Research
	
12 Top Optical Engineers	

Vertical Integrated Manufacturer

All design and manufacturing is done **in-house**. We have full control of each stage; starting with the raw materials to the finished products.

Dicing
Grinding
Polishing
Thin-film coating
CNC machining
Diamond turning
Active alignment assembly
Inspection

Why Shanghai Optics

- State-of-the-art metrology equipment
- Reducing risks associated with handling optics
- Avoiding the additional performance reduction and ensure the alignment accuracy of each element.
- Inspecting and testing assembled optics

Quality Assurance

- Shanghai Optics stands behind our products 100%
- All parts are manufactured under the comprehensive quality management system (ISO: 9001 & 14001 certified)
- North America Office Locations
- FOB, NJ
